

LEARN ABOUT TREES!

Discover the many different tree species in the Oakdale Nature Preserve on the Tree Trek! During the self guided tour along the forest trails, you will find unique trees marked with species identification. Look for these signs installed at each tree in the Tree Trek:

Learn how to identify trees along your hike by reading information such as:

- Common and scientific name
- Size at maturity
- Common traits
- Common problems
- Interesting uses and facts

Use a QR Code App on a smart device to quickly navigate to the species website with the QR Code image on each sign.
